

ENGINEERS INDIA LIMITED

---

**Empowering Society,  
Enriching Lives**

---

Aiming to usher in an era of social innovation, Engineers India Limited's numerous developmental initiatives are positively transforming the lives of lakhs of beneficiaries belonging to the deprived and impoverished sections of the society. Committed to operating its core business as a socially responsible corporate, EIL takes into consideration the wider interests of the community including the environment with a vision of promoting sustainable development.

EIL's social initiatives have no geographical limitations and the social projects have left their footprint across the length and breadth of the country. From the state of Ladakh in the North to Kerala in the South and Rajasthan in West to Assam in the East. CSR initiatives of EIL are successfully creating a positive impact in the country.

*EIL is creating a sustainable impact in the community by consistently spending more than the mandated 2% of the average net profit in the preceding three financial years. EIL has spent over Rs 130 crores in the past nine years towards social development initiatives.*

## Visible Impact on Local Community

EIL aspires for a shining transformation in the lives of each and every underprivileged and needy person it has touched upon through its widespread social initiatives and future endeavours. Most Educational, Healthcare and Skill Development initiatives of the organisation aimed at community development have been scaled up and have created noteworthy impact in the society, boosting and inspiring EIL's social footprints.
