नरेंद्र कुमार/Narendra Kumar
अनुपालन अधिकारी/Compliance officer

संलग्नक: यथोक्त/Encl: As above

EIL Net Zero by 2035

EIL is committed to vision of Honourable PM for Net-Zero

EIL Net Zero @ 2035

Climate change is undoubtedly one of the most critical challenges being encountered by human civilization. Communities across the globe have been pitching to mitigate the climate change for a long time.

In the rapidly changing global energy landscape, carbon intensity is becoming a key performance indicator for the success of any organization. New project investments are also diverted towards clean & green technologies instead of carbon intensive technological solutions. Hence, it is quintessential to become a net zero service provider to enhance company's Brand Image.

EIL as a responsible corporate citizen had already constituted a team in July 2021 to assess the carbon emissions from its own operations and chart out a roadmap for achieving its own Net Zero target.

In addition to fulfilling its own decarbonisation objectives, EIL is committed towards assisting its esteemed clientele in their energy transition journey towards net zero by providing clean and green technological solutions leading to a sustainable future for the generations to come.

In view of the above, EIL has declared 2035 as the year to achieve Net Zero aiming towards fulfilling our Hon'ble Prime Minister's vision to be Net Zero by 2070.

 

EIL Declaration Net Zero by 2035

Green Energy Solutions for a Sustainable Future
